FAQs

How long will it take to receive my order?

For expedited services it typically takes less than 4 days, but for specific dates please click the Process Time & State Fees link for state specific time.

Birth Certificate Xpress processes all requests immediately, but some states have many requests and have to wait in que.

Is my birth certificate a certified document?

Yes. The certificate will be a government issued, certified document (unless you choose "informational copy" or "souvenir/heirloom (uncertified)"). The state that you are ordering the certificate from decides on what type of certification seal to use.

Certifications include a registrar's raised, embossed, impressed or multicolored seal, registrar's signature, and the date the certificate was filed with the registrar's office. In either case, this is a certified copy and is generally acceptable for proof of citizenship, obtaining a passport (see below), driver's license renewal, etc.
